

Dear Oceans Pediatrics Families,

We are writing to share some news regarding our practice.

Dr. Linares will be moving out of state this summer, as her husband has an exciting new professional opportunity. While we are thrilled for her family's new adventure, we are sad to say her final day seeing patients at Oceans Pediatrics will be June 26, 2026.

Dr. Linares has cherished the opportunity to care for your children and wants to ensure every child continues to receive the best possible care. She is personally reviewing her patient list to provide tailored recommendations on which of our other wonderful Oceans Pediatrics providers would be the best fit for each child's unique needs.

What This Means for Your Family:

- **Seamless Transition:** Our team will be working closely with you to transition your care to another provider within our practice. Your child's medical records will remain securely in our system.
- **Upcoming Appointments:** If you have an appointment scheduled after June 26, we will reach out to confirm which of our providers will be seeing you.

We Are Here to Help:

We understand that choosing a pediatrician is a big decision. If you have any questions about this transition, or if you would like to discuss which provider Dr. Linares recommends for your family, please call our Office Manager Kristina at 561-793-2500. Kristina is dedicated to helping our families through this move and ensuring all your questions are answered.

We want to wish Dr. Linares and her family the very best. We look forward to continuing to support your child's health and happiness here at Oceans Pediatrics.

Warmly,

*The Team at Oceans Pediatrics*
